Bring your MRT and Iridology charts, flashlight, and any other tools equal to your current training level. Please RSVP by the Wednesday before the session date so that we can prepare a proper space and time for the Acute Clinic and study session to meet. You can call (989) 773-1714 or email to reserve your spot.

Study sessions are available to students to get more one-on-one help with academic questions from class, as well as more hands-on work in practical areas like, using evaluation and assessment tools, i.e., muscle response testing, iridology, sclerology, etc.

The last hour of study session will be dedicated to business strategies, tips and tools. Bring your business questions and strategize with Dr. Baker and group on solutions. Subjects that may be covered are:

If there are no business questions, then study session will continue without interruption on the day's subjects.
