I was unable to complete the assigned directed studies for the above class by the 60-day extended due date. I understand the following:

- The Institute's policy allows for two 30-day extensions.
- My Directed Studies was not completed within the two extension periods, and I am required to take the class again.
- I am requesting to retake this class on the above date.
- There is a \$150 fee due **with** this request.
- I understand that this may impact my final exam schedule and graduation date. I will meet with the staff in the academic advising office to update my class schedule.
